

Come experience the ultimate in airborne excitement!

See the world from a point of view that few get to witness and take a ride on the Roll-AIR-Coaster. You don't need a single ounce of flying experience, yet you get to make all the choices. Where you go and what you do is completely up to you. You won't be able to get the grin off your face, we promise.

Three different packages are offered. The Basic Roll-AIR-Coaster consists of basic barnstormers' type maneuvers that include barrel rolls, loops, and experiencing flying upside down. You are the Pilot-in-Command for this adventure, so you get to choose the maneuvers.

If you prefer an extreme adrenaline rush, the Extreme Roll-AIR-Coaster is the perfect package for you. Some of the maneuvers include things like vertical spins, tailslides, and gyroscopic tumbles. You still are able to make all the choices, if you can handle it.

Besides thoroughly enjoying flying upside down, we feel that Aerobatic and Upset Recovery training is some of the most important flight instruction you can get. Knowing what your aircraft can and cannot do is the primary goal of our Aerobatic Flight Training Package. Realizing and understanding the entire flight envelope of your aircraft are not skills you will use on a daily basis, but are essential in making a safe landing when conditions are less than adequate.

Prices for each package are as follows:

Aerobatic Flight Training: \$299 plus instructor fee of \$50

Roll Air Coaster Basic Rides: \$220

Roll Air Coaster Extreme Rides \$260.

For an additional \$50, you are able to record your experience!
